*Front-end Web Developer* Online

## SKILLS

---

- HTML5
- CSS3
- JS / ES6
- Typescript
- OOP
- jQuery
- SCSS
- Bootstrap5
- PugJS
- GulpJs
- Git & Github

## PROJECTS

---

### Techvio - IT Solutions Platform [🔗](#)

Using: PugJS / SCSS / jQuery / Typescript / Bootstrap5 / GulpJs

Developed an innovative multi-page application delivering seamless IT solutions through diverse themes and functionalities. Leveraged cutting-edge web technologies, to create **23** responsive pages tailored to user needs. Implemented advanced libraries such as **Isotope**, **Owl Carousel**, **Swiper**, **Particles.js**, **Vanilla-Tilt**, **WOW.js** and **EmailJs** to enhance interactivity and streamline communication. Focused on clean, maintainable code and optimized performance, demonstrating expertise in modern web development practices. This project showcases skills in **Responsive Design** and crafting user-centric interfaces. [🔗](#)

### SaaSpal [🔗](#)

Using: PugJs / SCSS / Typescript / GulpJS / Bootstrap5

Contributed to the development of **SaaSpal**, an intuitive web application designed to enhance how users engage with SaaS platforms. Focused on delivering a **responsive design**, **efficient performance**, and an **engaging user experience**. Emphasized **clean code** and **scalability**, creating a platform that streamlines SaaS workflows and boosts productivity. [🔗](#)

## Dashboard [↗](#)

Using: *HTML5 / SCSS / JS / Bootstrap5.*

**Responsive Web Dashboard** Developed a fully responsive dashboard with **data visualization** and **intuitive interfaces**, featuring a **dark mode theme** and **smooth animations using AOS.js**. Ensured seamless user interaction and optimal performance across all devices. [↗](#)

## Special Design [↗](#)

Using: *HTML5 / CSS3 / SCSS / Vanilla JS*

The template features a modern, responsive layout, providing a flexible foundation for web projects. I also implemented **localStorage**, enabling users to customize and save personal settings for a more interactive experience. This project highlights my focus on responsive design, clean code, and enhancing user engagement through personalized features. [↗](#)
